The Board is headed by ten Commissioners, two from each borough representing both major political parties for a term of four years approved by the New York City Council...

...A similar bipartisan arrangement of over 316 deputies, clerks and other personnel insures that no one party controls the Board of Elections. The Board appoints an executive staff consisting of an Executive Director, Deputy Executive Director and other senior staff managers charged with the responsibility to oversee the operations of the Board on a daily basis. Together, the executive and support staffs provide a wide range of electoral services to residents in Manhattan, The Bronx, Brooklyn, Queens and Staten Island.

The Commissioners of Elections meet every Tuesday at the Executive Office, in addition to the special hearings, legislative sessions and specific issue-oriented meetings (electronic voting, election legislation, labor management, rules and budget) during the calendar year.

Mission Statement

The Board of Elections in the City of New York, as provided under Section 3-200 of the New York State Election Law, is responsible:

- 1. To conduct fair and honest elections, from local to federal levels;**
- 2. To enfranchise all eligible New Yorkers to register to vote and to practice those rights;**
- 3. To conduct elections, certify the canvass and to retain the official records;**
- 4. Voter outreach and education.**

Briefly stated, this means:

First, the preparation of the ballot for Primary, Special and General Elections to the extent that all vacancies for public office and party positions may be filled.

Second, that qualified voters may exercise their right to franchise and that every opportunity be given to voters to execute that right and to vote for whom they choose.

Third, that the votes of the electorate at Primary, Special and General Elections be properly canvassed and that a true count be given for each candidate voted for.

Finally, that we make every effort to inform and educate the voting public of their rights as a voter and also to reach out to all Americans to instruct them in the voting process.

The following pages of this report will illustrate some of the duties as classified in the above synopsis.

President's Message

James J. Sampel
President

It has been my privilege to serve the people of the City of New York as one of the City's ten Election Commissioners. In 2008, as President of the Board of Elections, I interacted on a daily basis with dedicated public servants who have affirmed my conviction that the Board of Elections is an agency with which the people of the City of New York may take pride.

2008 was an historically remarkable year for many reasons. At the Board of Elections, 2008 was remarkable as a year during which four separate election events were conducted. The first election event was the Presidential Primary on February 5th, followed by a City Council Special Election on June 3rd, a Party Primary Election on September 9th, and the last election event was the November 4 General Election. In 2008, more than 4 million votes were cast by New Yorkers.

At the General Election of 2008, approximately 2.64 million people voted during the course of a 15 hour voting day. That breaks down to 2,889 people voting every minute, or 48 people per second, historic high voter turnout numbers. On Election Day votes were cast at 1,349 poll sites staffed by more than 36,600 poll workers, including 5,700 poll workers trained to assist voters using handicapped accessible Ballot Marking Devices. In addition, nearly 1,900 Spanish, Chinese, and Korean language interpreters were deployed to the various poll sites to assist voters. The Board of Elections' phone bank, staffed by 58 operators at two separate call centers, assisted 20,573 callers on Election Day. In addition, 111,715 people visited the Board's web site the day before Election Day and 101,651 used the poll site locator. On Election Day itself, 111,134 people visited the web site and 96,196 used the poll site locator.

During the period commencing January 1, 2008 through October 10, 2008 (the last day to register to vote in the 2008 General Election), the Board received and processed more than 700,000 new voter registration forms. By contrast, the Board received approximately 253,000 in all of 2007.

The 2008 voter turnout numbers are historic not only for the fact that they are the highest voter turnout numbers in the history of New York City, but also because this election was likely the last election in New York City to be conducted through the use of our existing 60 year old mechanical lever voting machine. The fact that 2.64 million people were able to cast their ballot for the General Election using a voting machine, a machine deemed to be a stone age relic in use during the electronic era, is evidence that the Board of Elections, its employees, and poll site personnel performed admirably in administering this election.

GREGORY C. SOUMAS ESQ., Commissioner

Gregory Soumas is the New York City Board of Elections Democratic representative from Manhattan and was appointed by the New York City Council in 2005.

Mr. Soumas graduated from Syracuse University with a bachelor of arts degree in political science and earned a juris doctor degree from Suffolk University Law School in Boston, MA.

A native New Yorker, Mr. Soumas was born in Manhattan and raised in the Riverdale section of the Bronx. He currently lives on the Upper West Side of Manhattan with his wife, Robin. He has been a Democratic Party district leader since he was first elected in 2002.

Candidate Records Unit

JOSEPH LAROCCA
Coordinator, Candidate Records Unit

The Candidate Records Unit (CRU) of the Board of Elections in the City of New York is responsible for the receiving, recording, processing and tracking of all candidate and objector document filings as well as ballot production for Primary, General and Special Election Events.

The CRU staff maintains candidate status on all these items in order to ensure an accurate ballot. The staff prepares, reviews, updates and corrects errors identified on all proofs of voting machine and paper (absentee, military, Ballot Marking Device, and standby emergency) ballots.

The unit is also responsible for receiving, recording and monitoring candidate compliance documents as part of the Campaign Financial Disclosure requirements. CRU received 2,331 financial disclosure reports from various candidates, political party committees and political action committees in 2008. Non-compliant candidates and committees are reported to the Commissioners of Elections, who instruct the Agency Enforcement Officer to begin legal proceedings against those in violation.

Communications and Public Affairs

VALERIE VAZQUEZ-RIVERA
Director of Communications and
Public Affairs

MEDIA/PRESS

The Communications Department works closely with the working press, radio and television stations to assist them with any information they need pertaining to election, candidate information and other election related subjects. This year, we continued the dissemination of information by distributing information kits to members of the press and any other interested groups that requested them. These kits contained a poll site list and any pertinent press releases.

OUTREACH

The Outreach Team, comprised of staff from each of the boroughs, continued its agenda of visiting various organizations and community groups that request our presence. We visited public and private school providing school auditorium programs and individual classroom instruction, neighborhood block associations, health fairs and local civic organizations.

LEGAL NOTICES

In accordance with New York State election law, legal notices were placed in newspapers one week before the election. These ads contained the names, addresses and political party affiliation of each candidate running in every election throughout the city. Ads were also placed the day before the election and the day of the election that contained the date of election as well as the hours that the polls are open. We also placed a full page ad informing the public of the availability of the Ballot Marking Device at their respective Borough Super Poll Site.

Voter Registration

BETH FOSSELLA
Coordinator, Voter Registration

As the Coordinator of the Voter Registration Department, I am, along with my staff, responsible for all activities that pertain to registering people to vote in the five boroughs of New York. This includes:

- Overseeing the Boroughs' responsibility to maintain the records of all registered voters. The total number of registered voters in the City of New York as of November 1, 2008 was 4,614,932 according to the New York State Board of Elections Data Base.
- Reaching out to all eligible voters in the City of New York and making them aware of the importance of being a registered voter and how much their vote counts. This is accomplished by:
 1. conducting registration drive at various community activities (street fairs, work fairs, community organization meetings, senior citizen community centers, etc.)
 2. visiting the high schools within the city informing students who are going to be eligible to vote, how important it is to be a registered voter
 3. distributing voter registration materials to the public. It is to be noted that all voter registration material is translated, in accordance to law, in the four languages – English, Spanish, Chinese and Korean.
- Providing and ensuring that all voter registration material is updated in accordance with New York State Law and that it is translated into the four languages required by the Department of Justice: English, Spanish, Chinese, and Korean.
- Updating all voter registration material and information on the Board of Elections' web site and that it is provided in these four languages.

CODE 9 – AGENCY REGISTRATION

In accordance with Local Law 29 of 2000, the Board of Elections coordinates with twenty City agencies to provide voter registration forms to any individuals that the agency encounters throughout the course of their regular operations. The Board supplies these agencies with voter registration forms, display boxes, booklets, and posters in English, Spanish, Chinese, and Korean. The Board distributed 299,250 of these "Code 9" registrations to the various City agencies in 2008.

Voter Registration Cont'd

CODE D – CITY UNIVERSITY OF NEW YORK (CUNY)

There is a special voter registration form that contains a special “Code D” demarcation and is distributed to the various schools of the City University of New York (CUNY) system. This special form helps the Board and CUNY track how many registrations originate from the efforts with CUNY. The Board distributed 109,000 Code D registration forms to CUNY in 2008.

LIBRARIES AND POST OFFICES

The Board of Elections regularly distributes registration forms and other materials to libraries and post offices throughout New York City.

In 2008, the Board distributed a total of 50,500 registration forms to 202 libraries and 61,500 forms to 246 post offices.

Election Day Operations / Poll Site Management

ROSANNA KOSTAMOULAS RAHMOUNI
Coordinator, Election Day Operations

POLL WORKER RECRUITMENT AND OUTREACH

This department is charged with the responsibility for the recruiting, training, placing and tracking the performance of approximately 90,840 individuals who “man” the polls and serve voters on Election Day. There are several different Poll Worker positions varying in qualifications and degrees of responsibility:

COORDINATORS are placed in polling sites with multiple Election Districts (EDs) and serve as the managers for the poll site to troubleshoot any problems and ensure that voters receive courteous, prompt and proper service.

INFORMATION CLERKS are placed at sites with multiple EDs to help direct and guide voters to their correct voting districts and/ poll sites by using street directories and poll site lists.

DOOR CLERKS are assigned to polling places with alternate handicapped accessible entrances where the doors cannot remain open or assistance is required.

INSPECTORS and **POLL CLERKS** are the backbone of the Board’s Election Day workforce. There are four **INSPECTORS** at each Election District or board, two enrolled Democrats and two Republicans – a system of “checks and balances” that is required by New York State Election Law. **POLL CLERKS** are similarly divided and are mainly used to help speed along the voting process in EDs where there are more than 750 registered voters. The poll clerks collect the cards from the voters and adjust the party lever on the side of the voting machine to activate the proper Primary ballot that reflects the political party enrollment of the voter. These individuals may also stand in for Inspectors when there are vacancies.

INTERPRETERS assist voters with limited English proficiency at poll sites in various neighborhoods in New York City and are a major component of the Board’s Language Assistance Program. The Board provides Spanish, Chinese (Cantonese/Mandarin) and Korean Interpreters in targeted areas in conjunction with the plan based on recent census data.

Election Day Operations / Poll Site Management Cont'd

A.D. POLL SITE MONITORS are a group of specially trained Poll Workers that monitor an Assembly District on Election Day. They are rapidly dispatched to address and correct any problems at poll sites within their districts.

While the Coordinators, Inspectors and Poll Clerks are required by law to be both a citizen and registered voter, the Information Clerks, Interpreters and Door Clerks do not have such a requirement. County Committee applicants make up a great portion of the total complement needed to staff the polls but thousands of positions still must be filled. To this end the Board trains and assigns poll workers recruited from various sources, including the City University of New York and numerous civic and advocacy groups. Poll worker applicants also submit forms obtained from the Board's phone bank, web site and the Borough Offices or by indicating interest in serving when completing their voter registration applications.

POLL WORKER TRAINING AND INITIATIVES

During 2008, eighty four Adjunct Trainers conducted Poll Worker training by conducting 2,463 classes at 77 sites throughout New York City. These four hour classes train the poll workers to use the Poll Worker Manual, visual aids, various voter information forms and materials used in elections. Also included in the training session in 2008 in addition to a demonstration of the mechanical voting machine was a demonstration of the new AutoMARK ballot marking device. In total, the Board trained 43,097 poll workers in 2008. Although the Board did not receive the resources it sought to man these BMDs with poll workers dedicated specifically to assist voters who wished to use them, we were able to train 7,664 poll workers to assist voters on the BMDs in addition to their myriad other responsibilities on Election Day. We also produced laminated materials on using the BMD that were available at all poll sites.

The Poll Worker Manual contains a section concerning diversity and incorporates the customer service training from the poll worker classes. The Board also recently

produced VOTE-NOTES, a quick reference tool the Poll Workers to use on Election Day. The Board's poll worker training video is accessible on our web site, enabling poll workers to log on and brush up on procedures before an election. Poll site signage has been reworked to provide voter information and assistance in all four mandated languages. These multi-language materials include the "How To Use The Voting Machine" stickers located in the voting machines, laminated handouts and the NYS Voters Bill of Rights.

NURSING HOMES PROGRAM

The Board of Elections provides special services to Nursing Care Residential Facilities and their occupants. During the 2008 Primary and General Elections, Board staff made 238 visits to Nursing Home facilities and delivered 9,019 absentee ballots to residents of these facilities.

2008 ELECTIONS

There were 112,813 positions established for the Presidential Primary Election, City Council Special Election, Primary Election and General Election. There were 90,840 applicants who were assigned and worked one of these elections. There were also 4,099 standby poll workers that were dispatched and worked during the 2008 elections.

EDO HAVA DEPARTMENT

This department was newly created in 2008 to help educate voters, Adjunct Trainers & Poll Workers on the BMD. These staff members organized and performed numerous demonstrations of the BMD throughout the year in all five boroughs of New York City. They also created a "BMD Poll Clerk Guide" for the Poll Workers and a similar voter guide. Finally, they were instrumental in training and testing both the Adjunct Trainers and the Election Day stand-by poll workers on the BMD.

Voting Equipment Operations Department

JOHN P. O'GRADY
Chief Voting Machine Technician

The Board's aggressive maintenance program in 2008 for the 45 year old mechanical voting machines resulted in strong performance results for all three major citywide election events where they were deployed – the Presidential Primary, Primary, and General Elections. There were 18,492 machine deployments between all of these elections and over 3.6 million votes cast on the machines. Of these, only 32 machines were replaced during the course of an election day with an incident rate of 8.26% (total number of necessary incidents reported divided by the total number of machines deployed).

We continue to enhance our fleet management system to more efficiently record all Election Day incident reports, dispatch staff, and record incident resolutions. In 2008, over 7,800 calls were recorded into the system and addressed by our staff. The Board continued to improve its response time for Election Day trouble calls.

In 2008, the Board of Elections received and tested 1,798 Ballot Marking Devices (BMD) for use at poll sites in New York City. Under a federal court order, at least one BMD was used in each of the city's poll site during the Primary and General Elections. The Board's 65 voting machine technicians were trained to use the new technology. For these elections, the technicians were responsible for setting up, testing, and deploying machines twice – once on the mechanical voting machines and once of the electronic Ballot Marking Devices.

NICHOLAS SQUICCIARINI
Facilities Manager

In 2008, the Board of Elections moved forward in acquiring additional facilities to store the new Ballot Marking Devices (BMD) that were deployed to every poll site throughout New York City for the 2008 Primary and General Elections. Working with the City's Department of Citywide Administrative Services (DCAS), the Board was able to acquire a new facility at 5112 Second Avenue in Brooklyn to serve as both a short-term facility for the BMDs in 2008 and eventually as the long-term consolidated Voting Machine Facility for Brooklyn.

The Board was also able to use a vacant City-owned building located at 1932 Arthur Avenue in the Bronx to serve as a short-term facility to deploy the BMDs in that borough. In Queens, additional space was acquired adjacent to the current Voting Machine Facility, located at 66-26 Metropolitan Avenue, to accommodate the BMDs. This space was not upgraded prior to occupancy and presented many challenges in setting up the new electronic machines for Election Day. Both the Manhattan and Staten Island Voting Machine Facilities were reconfigured to accommodate the additional BMDs.

Procurement Department

ELLIOT B. BORACK
Agency Chief Contracting Officer, CPPB

The function of the Procurement Department is to monitor and oversee all Board of Elections spending and contracting for goods and services, and to ensure compliance with the New York City Procurement Policy Board Rules (known as the PPB).

The PPB was developed to ensure that all city agencies' procurement practices are uniform in application; and provide fair and equitable treatment to all persons doing business with the city.

VENDOR DATABASE

The Board's vendor database continues to expand. Financial Management System has provided access to a wider range of vendors. The Board continues to look for ways to increase competition for goods and services and cost savings to the agency.

VENDEX CONTRACTOR PERFORMANCE EVALUATIONS

All Board of Elections' contracts are evaluated annually and several are reviewed twice a year. The evaluations provided positive responses to vendors, and helped the Board quickly identify vendors that did not fulfill their contractual responsibilities.

MONITORING CONTRACTORS

Since the inception of this program in 1996, the Boards' contractors' damages to Board owned equipment continues to decrease significantly. This monitoring continues to save the Board money and improves the overall quality of service from contractors.

FINANCIAL MANAGEMENT SYSTEM (FMS) PROCUREMENT PROJECT

The department continues to participate in the citywide training for the Financial Management System known as FMS. Although the system is operational, enhancements are on-going for adjustments to accommodate additional procurement needs and new ideas.

Electronic Voting Systems Department

LUCILLE GRIMALDI
Director, Electronic Voting Systems

The Electronic Voting Systems Department (EVS) is responsible for technical support for the Board's computerized voting systems. These currently include the central scanning and tabulation system for affidavit, emergency and absentee ballots and the management system for ballot marking devices. EVS prepares these systems for an election by populating them with an election's specific parameters and ballot elements. EVS also prepares, tests and coordinates the canvass functions related to these systems.

The affidavit, emergency and absentee ballot central scanning system, the Sequoia TeamWork system, has been in use since its introduction in 2000 and was used in three elections conducted in 2008 – the Presidential Primary in February, the September Primary Election and the November General Election. The Avante Vote-Trakker Ballot Marking Device (BMD), which had been used in the Primary and General Elections of 2006 and 2007 at the borough office "Super Poll Sites," was used in the 2008 February Presidential Primary at these sites as well. A new BMD, the ES&S AutoMARK, was introduced in the 2008 Primary and General Elections for use at each poll site throughout the city.

The central scanning system processed just under 270,000 affidavit, emergency and absentee ballots. The bulk of these – about 214,000 ballots – were from the November General Election. Just over 900 ballots were cast on the BMDs at the borough office "Super Poll Sites" in the February Presidential Primary, while just over 800 ballots were cast on the BMDs at the poll sites in the September Primary. Almost 9,000 BMD ballots were cast in the November General Election.

Prior to the selection, the Board issued a Request for Information and set in motion the Selection Plan that the Commissioners adopted in 2006. EVS and the project team reviewed the responses to the RFI and the Board's Evaluation Team evaluated and rated the equipment. There were demonstrations of the various Ballot Marking Devices for Board staff, the Commissioners and the public and the Commissioners held a hearing to solicit input from the public before they made their selection. Following the selection of the new Ballot Marking Device, EVS worked extensively with ES&S right up to the Election to bring the new system into conformance with requirements for elections in New York City.

Another selection process began toward the end of 2008 to select a new voting system that will replace the city's aging mechanical lever voting machines.

Personnel and Records Management

DOROTHY DELAYO
Director of Personnel/
Records Management Officer

The Director of Personnel processes all new employees upon their appointment. In addition to various documents, the Director of Personnel advises all new employees of their responsibilities and requirements. Picture identification cards are issued to all employees during their orientation.

The Director of Personnel is directly responsible for maintaining and updating health benefits, pension, management benefits fund, deferred compensation as well as other NYC benefits. Additional responsibilities include serving as liaison to the New York City Law Department in filing and maintaining all Workers' Compensation claims.

It is also this department's responsibility to work directly with the NYC Office of Safety and Health to maintain a safe and healthy work environment for all employees.

Other direct responsibilities include serving as Employee Assistance Programs officer in referring employees with needs to counseling programs. The number of employees entering the Employee Assistance Programs and details concerning the nature of their needs remains confidential to ensure a level of trust is maintained that will encourage employees to feel comfortable about seeking help. All employees are urged to avail themselves of this benefit.

The Director of Personnel also holds the title of Equal Employment Opportunity Commission officer responsible for ensuring all referable laws are enforced. Investigations are conducted as required when complaints are filed.

It is the standard operating procedure of this agency that a fact-finding inquiry be conducted to determine what action, if any, should be taken in cases of harassment charges being filed. That inquiry will be conducted with the Director of Personnel and General Counsel serving as the panel.

The responsibility of discipline also falls to the Director of Personnel. The Personnel Guidelines must be updated as needed and all rules and regulations are enforced through the disciplinary process by the Director of Personnel. Investigations and hearings are conducted as required. Disciplinary hearings are conducted and actions taken under direction of the Commissioners of Elections. Determinations of such hearings varied from termination to various levels of probation and/or suspensions.

The job responsibilities also require substantial travel around the city to visit all offices and voting machine facilities as needed, at times with only a moment's notice.

The Director of Personnel also serves as the Records Management Officer for the agency. These responsibilities include monitoring the storage and disposal of all records in all media and responding to Freedom of Information requests.

JOHN WARD
Finance Officer

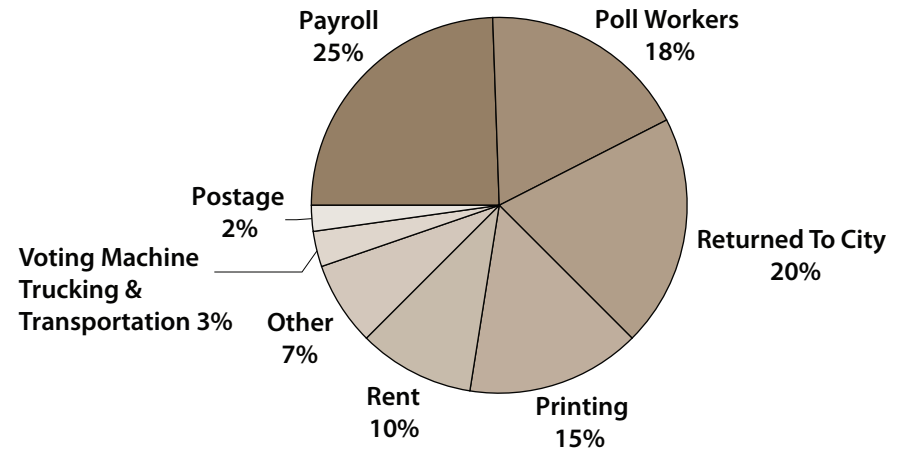

FY08 BUDGET HIGHLIGHT

The City's Fiscal Year 2008 (FY08) began on July 1, 2007 and concluded on June 30, 2008. There were three citywide election events during FY08. In addition to the 2007 September Primary and November General Elections, the Board conducted a Presidential Primary Election in February 2008.

BOARD OF ELECTIONS BUDGET BREAKDOWN FOR FISCAL YEAR 2008

General Counsel

STEVEN H. RICHMAN
General Counsel

The General Counsel provides legal counsel to the Commissioners of Elections and to the Board's executive staff on a wide range of matters relating to ballot access, the conduct of elections, and governmental agency administration.

ADMINISTRATION

General Counsel drafts for consideration and adoption by the Commissioners all election calendars. General Counsel drafts for consideration and adoption by the Commissioners proposed Rules for Designating and Independent Nominating Petitions. In addition, General Counsel recommends to the Commissioners revisions of formal Board policies and procedures to insure legal compliance.

LEGISLATIVE ACTIVITIES

General Counsel regularly monitors all legislative and judicial action that impacts election administration and advises the Commissioners on all legal developments affecting the administration of elections, including statutory compliance with State and Federal mandates related to the Voting Rights Act and the Help America Vote Act and related judicial directives. In addition, General Counsel drafts for consideration by the Commissioners the Board's annual proposal of legislative amendments for presentation to, and consideration by, the State legislative leaders.

COMPLIANCE ACTIVITIES

General Counsel advises the Commissioners on all elements of the Board's compliance with the federal Voting Rights Act. Any change in election administration affecting voter election participation in a covered county* must be approved in advance by the Department of Justice. To ensure compliance with the Voting Rights Act, General Counsel oversees the preparation and filing of all applications necessary for filing with the Civil Rights Division of the United States Department of Justice and General Counsel advises the Commissioners accordingly.

BALLOT ACCESS

In addition to drafting the proposed Rules for Designating and Independent Nominating Petitions, General Counsel oversees all aspects of the process for candidate filing and Board review of nomination petitions. In addition to overseeing this Board function, General Counsel acts as liaison with the Board's trial counsel in connection with any judicial review of related Board function.

LITIGATION

General Counsel acts as the Board's liaison with the Board's trial counsel on all matters of litigation involving the Board of Elections, its operations, and personnel.

* In New York City the counties covered by the Voting Rights Act are New York County, Kings County, Queens County, and Bronx County.

Management Information System Department (MIS)

STEVEN FERGUSON
Director, MIS

OVERVIEW

The Management Information Systems Department (MIS) operates the Boar's Data Center, Help Desk, System Elect (S-Elect) – the framework for the Candidate Processing and Election Support System (CPESS) and the Poll Worker Requirements and Support System (PWRSS), and Maptitude software for district maps. In addition, the Department is responsible for the Board's Phone Bank Interactive Voice Response System (IVR).

DATA CENTER

We continue to add high-speed data lines to replace slower existing lines. MIS continues to maintain system backups for mass storage devices and DLT tape cartridge for backup of all files. Updating and correcting of voter addresses is performed on an ongoing basis. The department has provided necessary programming and training internally.

The MIS department continues the use of the Help Desk System. This system tracks all trouble calls and assigns them to appropriate staff for resolution and closure. In-house staff of other departments have been very satisfied with this system to resolve their MIS-related problems. The Board continues to work in conjunction with the Department of Information Technology & Telecommunications (DoITT) for web site hosting and to augment our phone bank during peak elections cycles. New servers were installed last year and an IT infrastructure upgrade program has begun.

PHONE BANK

Our voter hotline, 866-VOTE-NYC, has been a great resource since its inception and continues to aid thousands of callers.

Peak amounts of calls arrive a few weeks prior to Election Day and in tremendous volumes on Election Day, trailing off in the following few weeks afterwards. Questions concerning registration, accessibility and absentee applications are just a few of the questions posed to our call agents. A poll site locator feature was added to provide information through the IVR system and proves to be very useful. Due to the extremely high volume of calls anticipated for the 2008 election cycle, the Board worked closely with DoITT to augment and enhance the phone bank's capabilities. The 2008 call volumes were, as anticipated, the highest ever. Despite the record number of calls, the 2008 election cycle went smoothly.

INTERACTIVE VOICE RESPONSE SYSTEM

The Interactive Voice Response System (IVR) continues to be successful. The system is available 24 hours a day, 365 days a year and gives the public direct access to registration data in all four languages. Enhancements to the system, including text-to-speech, are slated to be implemented in 2009.

Management Information System Department (MIS) Cont'd

PRINT SHOP

The Print Shop produces large volumes of regular weekly mail, Party Enrollment Books for all political parties, street finders, National Change of Address (NCOA) notices and counter copy. All of these were produced on schedule despite the heavy demands of the 2008 election cycle. Poll list books for Special Elections are also produced in-house by the Print Shop. MIS and the Print shop meet regularly with Xerox Business Systems (XBS), the equipment vendor.

MIS DEVELOPMENT PROJECTS

The MIS department undertook myriad significant development projects in 2008, including hardware and software updates, S-Elect expansions that included Poll Site and Fleet Management applications, and the enhancement of AVID III (voter registration system).

Hardware and Systems Software – MIS continued major upgrades of all its servers, storage arrays and a significant number of the desktop workstations. These included HP385 and HP 585 Servers, HP4000 storage arrays and workstations with Windows XP operating systems and widescreen monitors. Systems software was upgraded to use the latest server OS (Microsoft Server 2003), database (Microsoft SQL 2005), development platform (Microsoft Visual Studio 2005) and Microsoft XP.

Hardware and software for Disaster Recovery (DR) was installed for testing with the transfer with the transfer to the new permanent DR site in Queens scheduled for 2009.

S-Elect Expansion – S-Elect 3.5 was developed and implemented featuring updates to CPSS and PWRSS for the Presidential Primary. The version contained new candidate processing productivity features and expanded S-Elect with the new Facilities System (Poll Site, Training Sites, etc.) and the Affidavit Ballot tracking application. We were able to interface S-Elect with systems for the BMD data requirements in 2008 and are preparing to interface with the replacement voting system when it is selected.

AVID III Installation – AVID III is a major update developed and implemented in 2007 that continues to be upgraded and enhanced to meet the myriad changes the Board has been required to make. These changes include:

- Recent requirements for the Help America Vote Act
- New York State Board of Elections interface and reporting requirements
- NYS Voter II statewide voter database updates and network interface
- Integration with S-Elect and database commonality among all applications
- Preparation for new poll list book and report/notice development in 2009

Phone Bank

DANIEL LAVELLE
Phone Bank Supervisor

The Board of Elections' Phone Bank is an inbound call center with two locations. The Manhattan phone bank has a staff of up to 40 operators and the Staten Island phone bank has up to 20 operators to handle calls citywide during peak election season. The phone bank is operational with a reduced staff throughout the year to accommodate any voter requests and is staffed with members who can handle calls in English, Spanish, Cantonese, Mandarin and Korean. These operators handle a diverse range of calls, ranging from inquiries concerning a voter's registration status or poll site location to information concerning their elected officials. The phone bank system has an interactive component that allows members of the public to retrieve information after hours and on weekends. As the first line of communication between the Board and the voting public, the phone bank staff receives training on various aspects of Board operations to ensure that they are able to accommodate the voters' requests for information.

The phone bank operators answered 339,647 calls from the public in 2008.
